

my concern is about the new LPFM that could replace my current FM translator service. I listen to K-LOVE and as a resident of a small community, we only have one other choice for a radio station here in our town, K-Love serves as our only means for christian music and any positive radio at all. To replace with a LPFM would mean we would lose any and all radio communication with a christian station and hundreds of families here that depend on K-LOVE for christian support and to know that our children are listening to safe and encouraging music would be out of a place to listen to positive stuff. It is a strong public interest here in our community and we support K-LOVE wholeheartedly. Please keep Klove on the air and do not replace our FM translator service with the LPFM.
